### Purpose of the Post

This position will support research studies being carried out in the Language, Learning, and Cognition laboratory in the Department of Psychology. These studies include a variety of investigations looking at how knowledge about words is acquired and represented.

### Key Tasks

The main responsibilities of the post are:

- To recruit, schedule, and test participants for computerized, eye-tracking, MRI, sleep, and pen-and-paper experiments conducted in the Language Lab.
- To back up the data collected each day as appropriate.
- To work with senior colleagues in designing materials and stimulus presentation protocols.
- To conduct transcription, acoustic labelling, and other data coding tasks.
- To work with senior colleagues in designing data analysis protocols.
- To conduct analyses using a range of statistical techniques.
- To assist senior colleagues with dissemination, archiving, and reporting as required by the funder.

### Other Duties

The duties listed are not exhaustive and may be varied from time to time as dictated by the changing needs of the College. The post holder will be expected to undertake other duties as appropriate and as requested by his/her manager.

The post holder may be required to work at any of the locations at which the business of Royal Holloway is conducted.
