   2. Play a major role in the development and implementation of the College and department's research strategies.
3. Develop proposals for major research projects which will make a significant impact, and lead to an increase in knowledge or understanding or the development of new explanations, insights, concepts or processes.

4. Act as Principal Investigator on major research projects. This may involve leading and line managing the staff including their recruitment, probation, mentoring, performance review and staff development; managing the budget, and taking responsibility for the delivery of the programme.

5. Produce high-quality research outputs that are world-leading in the field, for publication in monographs or recognised high-quality journals, and which can also make a significant contribution to the School REF submission.

6. Make presentations at national and international conferences or exhibit work in other appropriate events of a similar standing, and play a lead role in identifying ways to disseminate research outputs via the internet and the media.

7. Play a role in identifying opportunities for strategic development of new projects or appropriate areas of activity and ensuring their development.

8. Play a role in identifying sources of funding and secure and/or contribute to the process of securing bids, both individually and in collaboration with others.

9. Play a lead role in identifying opportunities for enterprise activity, knowledge exchange, income generation and/or consultancy, where it is of manifest benefit to the College.

10. Develop successful links with external contacts such as other educational and research bodies, learned societies, employers, professional bodies and other providers of funding and opportunities to foster collaboration and generate income, and to influence the external research and policy agenda.

11. Provide academic leadership and inspiration to those working within own research area, and foster interdisciplinary team-working.

12. Develop and maintain an independent research reputation by, for example, serving on peer review committees, or acting as a referee for journal articles or research grant applications.

13. Lead and develop internal and external networks to foster collaboration on both an individual level and on behalf of others in the department, share information and ideas, and promote the subject and the University, both nationally and internationally.

14. Contribute to mentoring, peer assessment and to act as a referee for colleagues.

15. Act as a leading authority in the field or specialism, developing new knowledge, understanding and innovation in the area.

2. Teaching, Learning and Student Support
