

## PERSON SPECIFICATION

Details on the qualifications, experience, skills, knowledge and abilities that are needed to fulfil this role are set out below.

**Job Title:** Research Fellow

**Department:** Psychology

|  | Essential | Desirable | Tested by<br>(Application form, Interview, Test) |
|--|-----------|-----------|--|
| <b>Qualifications and Training</b>   |           |           |  |
| PhD in relevant subject area (or near completion of) e.g. Neuroscience, Psychology, Cognitive Science  | X         |           | Application Form                                 |
| Considerable knowledge of the literature and application of computational modelling analysis techniques in cognitive neuroscience and/or mental health | X         |           | Application Form/Interview                       |
| <b>Skills and/or Abilities</b>   |           |           |  |
| Proven ability to write up research findings   | X         |           | Application Form                                 |
| Strong statistical and computational skills  | X         |           | Application Form/Interview                       |
| Computer programming skills (e.g. Matlab, R, Python)   | X         |           | Application Form/Interview                       |
| Collecting behavioural data  | X         |           | Application Form/Interview                       |
| Working in the context of a research team  | X         |           | Application Form/Interview                       |
| Ability to present complex information effectively to a range of audiences   | X         |           | Application Form/Interview                       |
| Willingness to learn new methodological and analytical skills  | X         |           | Application Form/Interview                       |
| Collecting and analysing neuroimaging data   |           | X         | Application Form/Interview                       |
| <b>Experience</b>  |           |           |  |
| Working with neuropsychiatric populations, especially individuals with depression  |           | X         | Application Form/Interview                       |
| Supervision of more junior members of a research team  |           | X         | Application Form/Interview                       |
| Experience with open science practices (e.g. data/code sharing, pre-registration)  |           | X         | Application Form                                 |
